Family or project background குடும்ப மற்றும் திட்ட பின்னணி	Anuradhapura District Leprosy Patient During the treatment of the strong multi drugs for one year which causes lathery and weakens to the immune system. The patient needs to eat healthy nutritious food to stabilize and sustain and strengthen their system to live their day to day life. Diet supply of the nutritious food is the most vital factor in leprosy. As we know in Sri Lanka, low income families cannot afford to spend money on basic healthy food. Which is a high risk of a leprosy patient of declining their health and relapse.
