Introduction

KKM marks the 24th successful year in 2021. It all started with a community play back drama in 1998 until 2002 under the banner of GEEVA OLI MANRAM. KKM has moved on as non-profitable organization and today its functions and principals are spread worldwide. According to the KKM's constitution the executive committee meeting is held once in three months. This year the 67th committee meeting is held as usually. KKM always maintains their role in policies and responsibilities under any circumstances.

Our Vision:

The people of Sri Lanka (recovering from years of conflict) working together for positive change: creating a future where rights are protected and all are self-sufficient.

Our Mission:

To work in partnership with local communities:

- 1. Enable them to take responsibility for their upliftment and socio economic needs.
- 2. Help them understand and claim their rights.
- 3. Ensure the care and protection of disadvantaged persons, especially persons affected by leprosy.
- 4. Work with others towards the elimination of leprosy

OUR STRATEGY:

Awareness, Education, Health and Livelihood. - AEHL Strategy of KKM.

- a) Raising AWARENESS.
- b) Implementing **EDUCATIONAL** processes.
- c) Promoting **HEALTH**

Fostering **LIVELIHOOD** opportunities

Raising awareness:

Principally through drama and theatre. This will be the key to our strategy. Making people aware of their short coming, needs and their rights – using interactive drama as the principal educational tool.

Implementing educational processes:

Supporting education at every level for children from very disadvantaged families – particularly children from leprosy affected families. This will be achieved through sponsorships and loans.

Promoting health:

Build on our experience of working among leprosy affected individuals and other disadvantage communities, and widen the support and rehabilitation work outside the Jaffna peninsula. We will fully support the government leprosy elimination programme.

Fostering livelihood opportunities:

Promote traditional livelihood such as farming, fishing, small scale industries based on the Palmyra and coconut palms. These were lost and destroyed during the war and need resurrection.
